

# Digital Preset Counter Double Display Totalizer 8 Digit

- 8 Digit Preset counter with Separate Target Display .
- Displays Show counts the no. of pulses.
- Counting Stop after a Target Value and Relay On .
- Pulse counts from PNP-Proximity sensor & micro switch.
- Reset counts by R Button.
- Set Target Value by pressing Set Button and increase / decrease by help of up and R Button .
- Display Counts Up direction By Factory set.

**Price:** ₹2,850.00 Original price was:  
₹2,850.00. ~~₹2,650.00~~ Current price is: ₹2,650.00.

**Categories:** [Digital Counter Meters](#)

## Product Description

- **Display:- 6 Digit Seven Segment Super Bright Display.**
- **Digit Hight:- 0.56"/14.2 mm.**
- **Counting Range:- 0-99999999 Counts.**
- **Cabinet Size :- 96mm \* 96mm.\* Depth 110mm.**
- **Housing Material :- FR-ABS Black.**
- **Mounting :- Panel Mounting.**
- **Panel cut size:- 92 mm \* 92mm (+- 0.5mm).**
- **Weight :- @ 550 gms.**
- **Input Sensor Supply- 12 -24 volt. DC Pulse From Sensor.**
- **Aux. Supply-220 volt. AC.**

### Product Description

An Digital Electronic counter is a Sequential Logic circuit that has a clock input signal and a group of output signals that represent an integer "counts" value. Upon each qualified clock edge, the circuit will increment the counts. When the counts have reached the end of the counting sequence, the next clock will cause the counts to overflow or underflow, and the counting sequence will start over. Internally, counters use flip-flops to represent the current counts and to retain the counts between clocks. Depending on the type of counter, the output may be a direct representation of the counts a binary number, or it may be encoded. Examples of the latter include ring counters and counters that output Gray codes.

## DIGITAL COUNTER WITH TIMER DCT-161

- Model Name/Number DCT-161
- Display Type Seven Segment
- Usage/Application Industrial
- Count Capacity 0-999999 Count
- Brand MCS
- Size 48mm X96mm X110mm
- power supply 220 Volt Ac.
- Sensor Use PNP-NO
- Time Display HH:MM:SS
- Range 0-999999 Counts.

**Price:** ₹1,850.00 Original price was:  
₹1,850.00. ~~₹1,650.00~~ Current price is: ₹1,650.00.

## Product Description

### • DIGITAL COUNTER WITH TIMER

- **Display:- 6 Digit Seven Segment Super Bright Display.**
- **Digit Hight:- 0.56"/14.2 mm.**
- **Counting Range:- 0-999999 Counts.**
- **Time Range Max. :- 99 hours : 99minutes :99 seconds.**
- **Cabinet Size :- 48mm \* 96mm.\* Depth 110mm.**
- **Housing Material :- FR-ABS Black.**
- **Mounting :- Panel Mounting.**
- **Panel cut size:- 44mm \* 92mm (+- 0.5mm).**
- **Weight :- @ 400 gms.**
- **Input Sensor Supply- 12 -24 volt. DC Pulse From Sensor.**
- **Aux. Supply-220 /440 volt. AC.**

Digital Counter with Timer, Counter and Timer both in one meter, Counter with worker efficiency timer so we may check here if any worker laps his time in talking or walking or any other type waist of time. While such activity time accumulate for the whole duty hours and may display a big figure. This Counter has developed by concept to evaluate production counting and machine running time for that production. Hence in other words, workmen efficiency in terms of productivity; i.e. how much production has been produced by individual workmen in how much time. The working principle of this meter is we set a fixed time (let 10 Seconds) for one stock by any machine. now the meter starts its timer till 10 Seconds only. if meter found 2nd stock within 10 seconds then previous laps time added to Time Totalizer and let time restart from zero further for 10 seconds. if a 2nd stroke is not found then time stops. in this way, this meter accumulates total machine running time in respect of preset stroke time and we found total machine running hours and total production count. For Reset Counts- Press R Button and hold 1 sec.-> Total Counting Zero. For Reset Running Time - Press R and RT Button simultaneously -> Total Time is Zero.

## DIGITAL PRESET COUNTER

**Price:** ₹1,800.00 Original price was:  
₹1,800.00. ~~₹1,600.00~~ Current price is: ₹1,600.00.
